Er. Milan Magrati

IT Engineer | Full Stack Python Developer | Python, Django,
JavaScript, PostgreSQL
Kathmandu, Bāgmatī, Nepal

Summary

Hi, I'm Milan Magrati, a Full Stack Web Developer specializing in Python and Django. I'm passionate about building clean, scalable, and user-friendly web applications that solve real-world problems. What I Do Python and Django Web Development Django REST Framework and REST API Development E-Commerce Web Application Development PostgreSQL Database Management Frontend Development with HTML, CSS, JavaScript, and Bootstrap Authentication and Backend Development Git and GitHub My Experience I have hands-on experience developing E-Commerce and web applications using Python, Django, Django REST Framework, and PostgreSQL. I enjoy turning ideas and client requirements into functional, reliable, and user-friendly web solutions. My Approach I focus on writing clean and maintainable code, understanding client requirements, delivering quality work on time, and maintaining clear communication throughout the project. I'm continuously improving my skills through real-world projects and aim to build long-term professional relationships with my clients.

Experience

Ashwini Corporation pvt ltd
Full Stack Python Developer
January 2026 - Present (7 months)
Tinkune ,Kathmandu

I am a Full Stack Developer specializing in Python, Django, Django REST Framework, PostgreSQL, HTML, CSS, JavaScript, and Bootstrap. I have professional experience developing and maintaining scalable web applications, with a strong focus on clean code, performance, and user experience.

At Ashwini Corporation Pvt. Ltd., I worked as a Full Stack Developer where I contributed to the development of an E-Commerce web application using Python Django.

My expertise includes:

Developing secure and scalable web applications using Python, Django, Django REST Framework, and PostgreSQL.

Building responsive and user-friendly front-end interfaces with HTML, CSS, JavaScript, and Bootstrap.

Designing and integrating RESTful APIs, implementing authentication, product management, shopping cart, order management, and admin features.

Troubleshooting, debugging, optimizing application performance, and writing clean, maintainable code following industry best practices.

Collaborating effectively with team members to deliver high-quality software solutions on time while ensuring client satisfaction.

I am committed to delivering reliable, efficient, and high-quality web applications that meet client requirements and exceed expectations.

Sipalaya Info Tech

Django Developer

July 2025 - Present (1 year 1 month)

Completed an intensive 3-month training on Python and Django backend development. Developed real-world projects including authentication systems, CRUD applications, and e-commerce modules. Gained practical experience with PostgreSQL/SQLite databases, REST APIs, Git/GitHub, and debugging. Learned clean coding practices, version control workflows, and API testing using Postman.

Education

Pokhara University

Bachelor of Engineering in Information Technology , Science and Technology

· (July 2021 - August 2025)
